Wedding flowers

Juliet and her talented team at Kf will take great pleasure working closely with you to interpret your wedding aspirations into reality.

We are here to help and ensure every detail is managed with the utmost care and professionalism.

We enjoy specialising in small, intimate weddings in Central London, and our flowers have graced the rooms of many churches, restaurants, venues and homes across the city.

We love to capture the spirit of the occasion, by using seasonal flowers, foliage and textures and try to buy British grown blooms when possible.

We encourage sustainable floristry designs, so avoid using floral foam and single use plastics.

All of the work we create is bespoke and tailored to each wedding couple. We are happy to work with you, and together find what will be right for you.

If you are working on a budget for your wedding flowers, do not worry. Beautiful flowers are bountiful and possible

We offer 2 options of wedding flower services;

Tailored wedding service

A completely bespoke service, tailoring all aspects of the floral designs to what you want. You choose the flowers, the colours, style, theme and so forth.

An appointment will be arranged for Juliet to meet with you face to face in the shop for a consultation. This is an opportunity for you to discuss any ideas you have and Juliet can offer support and advice when necessary. Juliet will then write up a summary and quote following the outcome of your meeting, and further communications can be made by phone or email, whichever is more convenient.

Nearer to the date of your wedding, we encourage a second meeting where final checks can be made and an opportunity to see colour samples and the blooms chosen for your special day.

Juliet will personally oversee all aspects of your wedding flowers to ensure every attention to detail is carried out and to support you in every step of the way.

Wedding package service

If you do not have any specific ideas of which blooms you favour, have a fixed budget and wish to keep the flower planning simple, our wedding package may work for you.

When you have an idea of your requirements, you simply email us, tell us the colour scheme you would like the flowers to be, what items are needed from our menu, a fixed price list and then leave us to create.

Juliet and her small team of talented florists will tailor the package to suit you, choosing the best seasonal flowers that we believe will work best for you, on the day.

To keep costs low, we cannot take requests for specific blooms, unless they work within the package budget.

Be in touch with us as early as possible to allow plenty of time to review requirements.

Simply give us a call on 020 7225 3176, pop into the shop or complete the enquiry form on our contacts page (<https://www.kensingtonflowers.co.uk/contact/>) and we will respond by return.
