Kensington *flowers*

Finding the right words, and the right flowers, can feel overwhelming at a time of loss. We are here to support you with sensitivity and care, guiding you through the choices and creating arrangements that honour your loved one with beauty and dignity.

Every design we create is bespoke — thoughtfully crafted with attention to detail, respect, and artistry. We offer a wide range of funeral flowers, from principal family tributes to elegant floral arrangements for churches, chapels, and memorial venues.

Tributes for the service are delivered with care directly to Kenyons, while larger installations for venues are arranged on-site, usually the day prior to the service.

Wherever possible, we work seasonally and sustainably, selecting the finest flowers and foliage, and using natural, eco-conscious alternatives to traditional floristry foam. Our arrangements often incorporate biodegradable bases or volcanic basalt “floral bricks” set in recyclable and compostable trays.

If you would like to discuss your wishes in person or by phone, please don't hesitate to contact us — we are here to help.
